CHARLES B. SHAW proposes to open on the 1st of March next, in this city, a Classical and Mathematical School, in which youth may be prepared for the University of Virginia, or any of the Northern Colleges, or for the profession of Civil Engineer. Mr. S. relies upon a competent Classical education, acquired at Columbia College, N. Y., and a Mathematical one at West Point, and upon the success he hopes for in the task of instruction, to secure him, ultimately, a larger patronage than be can reasonably expect at present.

The experience of many years in Engineering will enable him, in a shorter period, and a more satisfactory manner, it is hoped, than usual, to fit young men of good capacity for immediate practical usofulness in that profession, whether in the field or the office.

office.

Parents disposed to entrust him with the education of their sons, or young men desirous of becoming Assistant Engineers, are invited to make application to James E. Heath, Esq., or to Mr. John C. Sinton, by either of whom they can be furnished with a prospectus of the course in each branch of education.

Competent aid will be obtained in every department, wherein, from the number of pupils, or the variety of Mr. S.'s engagements, it may become necessary.
